# Our Brand: Garden Fresh

We launched Garden Fresh brand soon after our firm was incorporated. Under this brand, we have a wide range of incense sticks, dhoop sticks, cones, candles, reed diffusers, fragrance sachets, aroma oils and essential oils.

We have a talented and experienced team working at Garden Fresh. Our sourcing team ensures that we use the freshest and best quality ingredients. Our world class customer support team ensures timely and consistent communication with our clients.

# Natural Ingredients

We believe in fresh natural ingredients to make our products.

It is a value that is important to us and to our customers.

Our ingredients are ethically sourced from places that are known for purity, highest quality and aroma strength. Where possible, we use sustainable alternatives to natural ingredients.

# Handcrafted Policy

Our products are handcrafted by our talented staff using traditional techniques and recipes handed down through generations. Our dedicated staff come from various parts of the country and they take pride in the products they make.

Pictured below hand-rolling the incense is our star roller Indramma who has been with us since two decades and her equally talented hearing and vocally impaired daughter Sashikala.

# Sustainable Development

We always try to find ways to minimize our impact on the environment. We use sustainable sourced ingredients to make our products. Our packaging is minimal, biodegradable and recyclable. We believe that not creating waste is the best way to positively impact the environment. At Vivasvan International, we always strive to reduce our carbon footprint.

# Cruelty Free

Our products are made without the exploitation of people or planet and are not tested on animals. Our ingredients are vegetarian. We use sustainably sourced natural ingredients and minimize the use of synthetics.

# Fair Trade

Vivasvan International has a very strong commitment to Fair Trade. Our Buying team strives very hard to understand the implications our sourcing has on people and the environment. We take responsible decisions regarding from where, from whom and how we purchase our ingredients and packaging.

While buying, we make the following ethical considerations: workers rights, environmental impact, animal and wildlife protection, minimal transportation.

# Our Scents

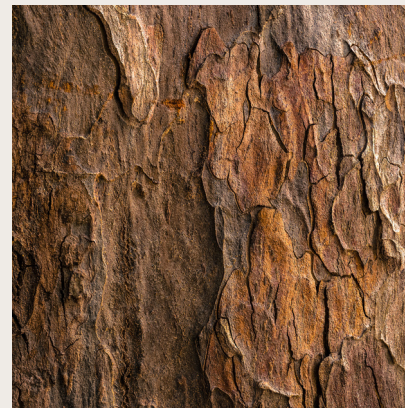

We have an ever-expanding and exhaustive range of scents. Our R&D team ensures that every perfume is subject to multiple, rigorous quality checks. Our well experienced production team ensures that quality consistency is maintained in every batch.
