SUSTAINABLE FABRICS

Our collections are made from organic, renewable, biodegradable and regenerated fibre. Entirely committed to fair trade production, we design with longevity in mind.

ORGANIC COTTON

All our cotton is certified organic by the National Programme for Organic Production (NPOP). The versatility of organic cotton is the basis of our collections.

TENCEL

We use Lenzing tencel, a biodegradable fibre made using wood pulp from Forest Stewardship Council (FSC) certified forests. Our tencel is produced within a closed loop, which re-circulated all water used in manufacture.

ETHICALLY MADE

Sri Kalyan Export India Private Limited are certified by non-profit internationally recognised organisation. With independent audits and accreditation bodies, we support fair wages, no child labor, workers rights, gender equality & grower communities.

FAIR TRADE

All our cotton suppliers and manufactures are certified by Fair trade Labelling Organisations International (FLO) in India. Fair trade empowers farmers to negotiate with buyers to secure better prices for their cotton. Every season, certified farmer groups receive a premium to be spent on community projects.

SAFE WORK PLACES

Our bags factory is certified with SA 8000 and Sedex (SMETA). The SA 8000 Standard encourages clothing manufacturers to develop, maintain, and apply socially acceptable practices in the workplace. SA 8000 organisation are audited by certifications bodies accredited by Social Accountability Accreditation Service (SAAS).

ETHICAL TREATMENT OF ANIMALS

Farmers commit to the highest grade of animal welfare, environmental care and social responsibility. This includes commitment to no mulesing and basic freedoms as described in the Animal Welfare Act 1999 and the Animal Welfare 2010.

ENVIRONMENTAL PRACTICES

As a Manufacturer, we are accountable for the entire lifetime of a garment. We are committed to designing beautiful ethical and sustainable collections, and will continue to find ways in which we can develop and innovate our clothing without costing the earth.

ORGANIC COTTON FARMING

Organic farming is achieved through companion planting, corporations and on-site green waste composting, which helps to preserve entire ecosystems. Crops are exclusively rain - fed and hand picked several time during the season. Our cotton is grown from non - genetically modified seeds and organically farmed without harmful chemicals.

ENVIRONMENTALLY FRIENDLY DYES & WASHES

Our organic cotton is processed using Global Organic Textile Standard (GOTS) approved inks and dyes, which are free from chlorine bleach, toxic heavy metals, formaldehyde and aromatic solvents. We use GOTS approved washed for our organic fabrics from light weight voile to heavy canvas.

All our fabrics from organic cotton, plant fibre fabrics, sustainable fabrics is processed and dyed with low impact, heavy metal free dyes to ensure skin friendly and environment friendly for the planet.

These processes ensure sustainable use and treatment of water.

ORGANIC COTTON BAGS - GOTS CERTIFIED

Our GOTS Certified organic cotton bags are back in fashion and they are environmentally, friendly, naturally, bio - degradable are benefits of cotton bags. We produce from the smallest drawstring sachet to large cotton shopper, our cloth bags make use of this natural textile and offer a re - usable alternative to plastic or paper promoted in an authentic and practical way using cloth bags. We mainly manufacture with organic cotton quality fabrics, but have also successfully launching with environmentally, friendly packaging benefits or organic cotton bags of your choice using recycle tags, boxes etc.,

FAIR TRADE ORGANIC COTTON BAGS - FAIRLY MADE

We are proud to be Fair Trade Certified Company. Our ethical, eco - friendly & Fair Trade Totes are made to last. Choose from our wide range of Fair Trade Organic Cotton Fabrics to make your perfect tote bag and announce to the world that these bags will have no adverse environmental impacts and its fairly made.

These custom reusable bags will make your customer's experience both practical and stylish, whether it be filling them with goodies at the local farmers market trade show give away or running errands on a casual day out with friends !

Fair Trade certified cotton The Fair Trade Organisation ensures that disadvantaged farmers and workers in developing countries get a better deal through the use of the International Fair Trade Mark.

FAIR TRADE STANDARDS FOR COTTON

Producers are small family farms organised in cooperatives (or associations) owned and governed democratically. The minimum guaranteed price (Fair Trade minimum price) is paid directly to the producer organisations. Fair Trade helps small scale cotton farmers tackle poverty and improve the day to day conditions in which they live and work. A premium price is added to the purchase price and is used by producer organisations for social and economic investments such as education, health services, processing equipment and loans to members. No forced labour of any kind, including child labour.

ORGANIC COTTON MESH / NET / STRING / MUSLIN BAGS

We produce organic cotton mesh bags, string bags, net bags and muslin bags which helps preserving environment in a very big way. Produce bags to the grocery store or farmer's market and fill them up with your fresh fruits and veggies. See how easy it is to bring your purchases home and create zero waste. The drawstring top keeps everything from falling out. You'll see these bags are also handy for organising travel and gym stuff or even using them.

ENVIRONMENTAL BENEFITS

Long lasting, washable and reusable alternative to paper or plastic bags. GOTS certified these bags ensure that the cotton has been organically grown and that fabrics have been treated in an eco friendly way. Manufacturing in a small indian factory.

Sedex[®]

ORGANIC COTTON DRAWSTRING & COSMETICS BAGS

A drawstring backpack has one main compartment. This makes it easier to find whatever you're for as you won't have to look through multiple compartments like a traditional bag. A traditional bag has multiple zippers and the possibility for something falling out is higher. Beyond in style while keeping all their goodies zipped up with personalized cosmetic bag. It's environmentally sustainable packaging products like zipper pouches are great for easy storage access and organization. We specialize in personalization so each bag can be modified by size, style, colour, handle and or course artwork to identify with your customers or promote your brand.

ORGANIC COTTON MULTI COLOUR DYED BAGS

We are producing 100 % organic cotton multi colour dyed bags. Cotton multi colour dyed bags could replace non - bio degradable bags in your store. You can either sell them to your customers or offer them as a free gift to loyal customers who spend a certain amount on your products. Printed bags could be used as part of a goodie sack given away at an event or trade show. Branded bags can even be used as promotional packaging solutions, helping to raise awareness for your brand and reduce environmental waste.

ORGANIC TEA BAGS & COFFEE FILTER BAGS

Why organic cotton tea bag we help to keep our environment as clean as possible by the habit of reusing things more often before they are disposed. This tea bags made from 100 % natural unbleached cotton fabric domestically grown here in India. Suitable to brew tea with steaming hot water reusable these cotton bags are fully reusable and washable. It's an inexpensive, environment friendly tool for drinking all your loose leaf tea and herbal infusions.

Our organic cotton coffee filter bags are reusable and eco friendly to make great coffee.

Organic Certified by ICEA, Italy
GOTS 2017 - 060

ORGANIC COTTON / FAIR TRADE PRINTED BAGS

It can be difficult to constantly come up with clever advertising tools that offer a range of unique ways to reach out to your audience. However, as a dynamic business, it's important to keep using dynamic new solutions for branding that help you to share your message with the world and have a lasting impact on your target audience. Promotional printed bags can be one of the easiest and most effective ways to expand your marketing opportunities. When it comes to bag printing it's important to remember that quality is essential if you want to make the most of your promotional campaign. People will only reuse your gear and therefore show your logo to the world if it's attractive and durable. This means that you not only need to choose the right design for your products but also the right material too !

*25 Recycle Colour Yarns Available

RECYCLE COTTON BAGS / RECYCLE POLYESTER BAGS

Recycling involves processing used materials (waste) into new products to prevent waste of potentially useful material reduce the consumption of fresh raw materials reduce energy usage, reduce air pollution (from incineration) and water pollution (from land filling) by reducing the need for “ conventional “ waste disposal and lower green house gas emissions as compared to virgin production. Recycling is a key component of modern waste reduction and is the third component of the “ Reduce, Reuse, Recycle “ waste hierarchy.

Our recycle cotton / ecological cotton is made of knitted fabric cut parts (excess coming out from knit fabrics after cutting for t - shirts / garments) colour wise segregated and reprocessed to fibre and add 15 % of polyester for its strength and again spun to yarn and from that we make fabric. This is very low impact as no water used for dyeing or processing.

So recycling is globally accepted concept now as people can use 100s of times our recycle bags which provides great / good impact on environment.

We are one of the Leading GOTS organic certified manufacturer & exporter of organic cotton woven fabrics, baby care & home textile products.

We are into organic cotton fabric manufacturing for the past 10 years as the buyers and people started knowing the benefits of organic cotton and its ethical impact on farmers, environment and the society.

So, we immediately adapted organic cotton into our manufacturing from greige, printed, fabric dyed and yarn dyed fabrics. And got the world's most renowned organic standard certifications for organic cotton, GOTS - Global Organic Textile Standard and Textile Exchange's, OCS - Organic Content Standard.

Organic Cotton GOTS Certified Manufacturer

Organic Pure Indian Cotton

Organic Cotton Facts

Cotton uses more chemicals per unit area than any other crop, accounts in total for 16% of the world's pesticides, uses 20,000 litres of water per kilogram of cotton yield and ruins the lives of the farmers trapped in cotton poverty. There are lot more reasons to move away conventional cotton to organic cotton.

Organic cotton clothing looks great, feels great and has some great environmental benefits, when it's done right.

Fair Trade Organic Cotton

We are also into process and supply of 100% Fair Trade organic cotton fabrics, body textiles, gags and home textiles items. We work with organic cotton farmers producers groups who typically grow organic cotton with an aim to provide fair wages, technical knowledge, financial support, till marketing their produce., which ensures farming a sustainable and profitable occupation for farmers and their family.

SUSTAINABLE
SOURCING

Happy

Organic Farmers
& You

Fair Trade Certified Company

We are proud to be certified by Fair Trade International as Fair Trade Organization by Flo Cert a global certification and verification body. Our aim is to follow fair trading practices in all areas of our supply chain from farmers to fashion buyers. Which is duly supported by Fair Trade certification.

Oeko-Tex Standard 100 Certified Manufacturer & Exporter

Product Class I

Sri Kalyan Export Private Limited has achieved Oeko-Tex Standard 100 Product class I for adopting and using ecological production materials, processing as per Oeko-Tex standard for producing fabrics which can be used for Baby Care, Bedding & Garments, Home Textiles, Bags, etc., Oeko-Tex testing for harmful substances always focus on the actual use of the textile. The more intensive the skin contact of a product, the stricter the human ecological requirements to be met.

Product Class I

Textile items for babies and toddlers up to 3 years (clothing, toys, bed linens, terry cloth items, etc.,) which is the highest standard in Oeko-Tex.

SA - 8000 : 2008 Certified Company (Social Accountability International Standard)

SA - 8000 is the first Social & Ethical Standard for corporate. And we are proud to be certified and assured that Sri Kalyan Export Private Limited is operating. As per procedures and standards set by SA - 8000 which ensures workers safety, sanitation, ventilation, fair wages, no child labour, fire safety standards, good water facility, CCTV surveillance, good working conditions are met in factory and office.

The social working standards are maintained as per rules and regulations of Indian Labour Law and International Labour Organization (ILO) & Social Accountability Accreditation Services. And we are also engaged in various social activities in creating awareness about tree planting, rain water harvesting, organic farming, child labour, fair trade practices, etc., So as social corporate company we ensure quality products and quality work life & social life is met as per buyer requirements.

Empowerment

Textile industry plays an important role in women empowerment in india. And at Sri Kalyan Export most of our floor works, checking, packing, etc., Is done by women workers and we provide sanitation, safety, convenient work timing etc., for women workers to balance their work and home life. And the fair wages paid to them helps to maintain quality life and to save money for their future, which makes them economically independent.

How we create Social, Ecological and Economical Impact

As an ethical textile business organization we always want to be sure our products are made according to Socially, Economically and Ecologically responsible business practices.

Social Impact

Most of our production related works are done by women workers about 70% we are committed to industry leading working conditions in terms of safety, healthy and fair labour practices. We promote fair and living wages. We conduct health camps, educational awareness drives and initiatives for community development beyond livelihood opportunities. We work with NGO's Social & Green Organizations for the promotion of awareness and implementations.

Ecological Impact

The Cotton & Cotton yarn source by Sri Kalyan Export is organic and ensuring no damage to the environment at the stage of farming and sourcing fo these crops. No pesticides are used in the farming of our organic cotton. Our dyeing, printing and finishing process is in standard as per approved by GOTS authority and it ensures non-toxic, heavy metal free, skin friendly, environment friendly etc., We are providing free saplings to the people who are interested in growing trees in private and public lands. The only condition is to take care and maintain plants till it become self sustainable. This is our one of the green initiative to maintain green environment and good ecological / climatic conditions.

Economical Impact

We are on of the fastest developing company with an aim to be leader in organic textiles, fair trade, socially & environmentally responsible ensuring sustainability & ethical values. Which is being ensured with our GOTS, Fair Trade, SA-8000 and Oeko-Tex certifications. We handle a diverse range of textiles products which required high labour force.

We provide interest free small loans to our workers in order to save them from money lenders who charge high interest rates.

Certified for Quality & Environment

ISO 9001 : 2015 International Quality Management System.
ISO 14001 : 2015 Environment Management System.

As an Young and Energetic team we are Constantly updating our Ethical Business Practices / Sustainable Textile Solutions / Social and Environment Activities / Women Empowerment etc., which benefits our Society / Customers and the World for ensuring Clean / Green land for our coming generations

SUSTAINABLE FABRICS

Our collections are made from organic, renewable, biodegradable and regenerated fibre. Entirely committed to fair trade production, we design with longevity in mind.

ORGANIC COTTON

All our cotton is certified organic by the National Programme for Organic Production (NPOP). The versatility of organic cotton is the basis of our collections.

TENCEL

We use Lenzing tencel, a biodegradable fibre made using wood pulp from Forest Stewardship Council (FSC) certified forests. Our tencel is produced within a closed loop, which re-circulated all water used in manufacture.

ETHICALLY MADE

Sri Kalyan Export India Private Limited are certified by non - profit internationally recognised organisation. With independent audits and accreditation bodies, we support fair wages, no child labor, workers rights, gender equality & grower communities.

FAIR TRADE

All our cotton suppliers and manufactures are certified by Fair Trade Labeling Organisations International (FLO) in India. Fair trade empowers farmers to negotiate with buyers to secure better prices for their cotton. Every season, certified farmer groups receive a premium to be spent on community projects.

SAFE WORK PLACES

Our Home Textile & Fabric is certified with SA 8000 and Sedex (SMETA). The SA 8000 Standard encourages clothing manufacturers to develop, maintain, and apply socially acceptable practices in the workplace. SA 8000 organisation are audited by certifications bodies accredited by Social Accountability Accreditation Service (SAAS).

ETHICAL TREATMENT OF ANIMALS

Farmers commit to the highest grade of animal welfare, environmental care and social responsibility. This includes commitment to no mulesing and basic freedoms as described in the Animal Welfare Act 1999 and the Animal Welfare 2010.

ENVIRONMENTAL PRACTICES

As a Manufacturer, we are accountable for the entire lifetime of a garment. We are committed to designing beautiful ethical and sustainable collections, and will continue to find ways in which we can develop and innovate our clothing without costing the earth.

ORGANIC COTTON FARMING

Organic farming is achieved through companion planting, corporations and on-site green waste composting, which helps to preserve entire ecosystems. Crops are exclusively rain - fed and hand picked several time during the season. Our cotton is grown from non - genetically modified seeds and organically farmed without harmful chemicals.

ENVIRONMENTALLY FRIENDLY DYES & WASHES

Our organic cotton is processed using Global Organic Textile Standard (GOTS) approved inks and dyes, which are free from chlorine bleach, toxic heavy metals, formaldehyde and aromatic solvents. We use GOTS approved washed for our organic fabrics from light weight voile to heavy canvas.

All our fabrics from organic cotton, plant fibre fabrics, sustainable fabrics is processed and dyed with low impact, heavy metal free dyes to ensure skin friendly and environment friendly for the planet.

These processes ensure sustainable use and treatment of water.
