Sustainable Product Offering

BEWELL

COTTON + BAMBOO
blended yarn towel collection

These towels have been created from a blend of pure cotton and sustainable bamboo properties which means that towels are not only silky soft and luxurious but also feature antimicrobial properties which repel bacteria growth.

Towels will remain fresh and odour free throughout use.

- Bamboo gives clean air to breathe, consumes Co2
- Sustainable –Less energy & water to grow. Requires less maintenance
- Bamboo can be grown without pesticides and chemical because of its own antibacterial agent & thus prevent from UV lights
- Absorbent-4 times then cotton
- Bamboo-is biodegradable

Our Cotton Tencel towels have been produced combining a blend of environmentally safe, silky soft Tencel with pure cotton.

A premium and highly absorbent towel which retains its natural sheen wash after wash.

- Comfortable: soft, light weight
- Lasting-Durable-both ways –wet & dry form
- Colour rich- having high absorbency can be dyed in any color
- Natural-Found in wood pulp.
- Economical as its uses less energy and natural resources.
- Sustainable-As its fully biodegradable.

VIGORA – Plain dyed jacquard terry towel

Our Vigora towels have been cleverly crafted from a blend of pure cotton with sustainable and unique Hemp fibres. Hemp is fast emerging in textiles due to its ECO-friendly advantage. It thrives in challenging weather conditions using less water, no pesticides and leaves soil in a healthy condition. Hemp grows significantly faster than cotton and is also stronger than cotton which enhances durability when used in textiles.

- Hemp is eco friendly
- Sustainable -Requires no pesticides and less water. Almost half the water of cotton
- Strong, Light weight & absorbent.
- Weather resistant-UV protection. Considered as excellent outdoor wear
- Hemp as an inherent antibacterial properties

NATURA cotton – Plain dyed dobby terry towel

NATURA cotton towels have been crafted from pure cotton procured from organic farms with best agricultural practices which means use of less chemicals, fertilisers and water consumption.

A sustainable towel which will remain soft, absorbent and durable throughout use.

SOFT

DURABLE

ABSORBENT

bulky....no PVA towels

softer, bulkier, absorbent, sustainable....no PVA towel collection

The Marvel of spinning...Our MELLOW towels have been masterfully crafted using a low twist yarn to create a soft, fluffy, durable, and highly absorbent towel.

tt

- Super Low twist
- Sustainable –super soft with the use of PVA
- Soft, Durable, Absorbent
- Can be enhanced by addition antimicrobial properties

Our effort to sustainability.....**RECLAIM** towel collection

Goodness of cotton is entwined with PET fibres obtained from discarded water bottles, the towel is durable as it lint less, absorbs more, dries quick and stays fresh bath after bath.

Approx weight of PET yarn used in towel composition accounts for removing 6 discarded bottles from environment. The PET content can be managed in the towel.

PLASTIC TO PERFORMANCE - RECYCLING FACTS

- 10 plastic bottles = 1 pound of polyester fiber
- 1 Ton of plastic bottles recycled saves 3.8 barrels of oil
- 1 million plastic bottles recycled saves 250 barrels of oil
- 1 million plastic bottles recycled eliminates 180 mts of Co2 emissions from being released into the atmosphere.
- Reprocessed polyester involves a process that reduces energy consumption by estimated 30% compared to manufacturing of virgin polyester.

ANTIMICROBIAL

BULKY
