Customization

We are specialist in developing customised products for our clients...

In order to meet the discerning market requirements, AKHAND EXPORTS facilitates product development capabilities to design and develop products exactly as per client's specifications. We ensure that our company is well versed with the requirements of our clients.

Our advanced manufacturing techniques backed by industry experts manufacture products that meet the expectations

of our clients, which has helped us to expand our business worldwide.

Our manufacturing unit has a separate department involved in product innovation and creating new designs. Along with the new

products being developed at our end we also customize the products for our clients. This department works in consultation

with the clients so as to reproduce the clients idea in form of the product.

Our Capacity

Customization of products can be related to various factors such as follows:

- Type of metal
- Design
- Dimensions
- Shapes
- Sizes
- Quality

D-9, Industrial Estate, Kanth Road, Moradabad-244001 - INDIA

Based on the sample product or simply the photograph or the drawing of the product, AKHAND EXPORTS is known among its customers to manufacture the exact replica of the product as desired by them. Our company has managed to take a lead in the market in a short period of time due to our capability to adapt to new trends, understanding customer needs and developing new products and new designs continuously. Further we don't bind the customer with the minimum order quantity for standard as well as customized products and accept all large and small orders.

D-9, Industrial Estate, Kanth Road, Moradabad-244001 - INDIA

A well-equipped infrastructure is the forte of our company...

Our Machines

AKHAND EXPORTS operates with modern machines and new age technology to design, develop & deliver products as per our client's requirements. We are equipped with the state-of-the-art infrastructural facility which helps us to meet the industry requirements. Our factory also has testing facilities to check the final products so that they are free of any defects and adhere to international standards and specifications. We have following machines used in various stages of manufacturing process:
